Bachelor of Technology: **Computer Science and Engineering**- 2013
**MG University, Kerala, India (8.4/10 GPA)**

# Recent Works

- **CocoMaple:** This is an online food delivery website made with PHP and WordPress. The website is made alluring and highly interactive with the use of WooCommerce and Several Plugins which are in-built as well as custom-made. The web application has a Home Page, About Page, and Menu Page which lists the different food items based on categories, Cart Page, Checkout Page, and a Contact Page. Whenever an order is made, the shipping details will be sent to the user.
  Technology: **WordPress**

- **RecipeForYou:** RecipeforYou is a web application for assisting everyone in finding a suitable recipe to cook. Recipe searches can be made highly customizable so we can personalize a healthy meal plan that works with our unique tastes and lifestyle. We also let users add their own recipes. Moreover, we provide a BMI calculator and a grocery list organizer. In addition to this, nearby Nutritionist's suggestions are also provided.
